

Matteo Cavasinni

Computer Scientist

About me

I am a computer science student, I live in Celano (AQ). I am currently attending the second year of my master's degree at the university of L'Aquila.

personal

Matteo Cavasinni
nationality: Italian
30/10/1999

Areas of specialization

Software Development • ADS
• Integer Programming • Big
Data Processing • Deep
learning

Interests

I used to go to the gym and i
love football

SHORT RESUMÉ

a.a: 2019–2023

Bachelor's degree

UNIVERSITY OF L'AQUILA · L'Aquila 📍

During the course of studies I faced the issues of software engineering such as development methodologies (Waterfall, Agile, DevOps) and the various phases. In addition to this I learned the main programming paradigms such as OOP and the various technologies used in the web field. The course also included topics such as: Computer Networks, Databases, Algorithms and Data Structures, Operations Research, Mobile Development, Operating Systems.

2023-2023

Internship

SIAC · Avezzano 📍

The internship was based on the creation of a small stand-alone application developed in java 8 and the javafx graphics library. In particular, this simple application was used to perform queries in the company's databases.

a.a: 2023–now

Master degree

UNIVERSITY OF L'AQUILA · L'Aquila 📍

During my master's degree so far I have dealt with topics such as: Model-Driven-Engineering, IoT technologies, AI (Reinforcement learning, Machine learning, Deep learning), Intelligent Systems, Micro-services Architecture, Decision Optimization for LP, Big Data Processing (Apache spark), Formal Methods.
